

Some flight scenario examples

iFly 737NG

Not For Operational Use

Use the Cold & Dark start up CARD and proceed the CDU settings as below for each scenario. After CDU setting continue according the start up CARD. Proceed any flight up to showdown and securing.

Repeat each scenario with both in very low visibility or night time flying.

Use flight planner from the p3d navigation menu to plan your flight.

Use the appropriate ILS frequency depending on the airport and runway you land.

The Boxes on CDU are mandatory and dashes are arbitrary
